#### A COLLABORATIVE NETWORK:

- **16 academic Clinical Investigation Centers** all around France,
- **10 expert associate centers**,
- Active in **Neuroscience research**,
- With a strong expertise in the field of movement disorders (Parkinson's disease, Multiple System Atrophy, Progressive Supranuclear Palsy...), validated for MDS-UPDRS and MDS-UDysRS rating scales.

#### A NATIONAL PLATFORM FOR CLINICAL INVESTIGATION

- In each center, at least:
  - **A Parkinson's disease and Movement disorders specialist** in link with the local hospital department of Neurology,
  - **A CRA partially funded by Ns-Park network.**
- Depending on the centers:
  - A correspondent working with the local CIC (INSERM-DGOS),
  - Networks for patients recruitment and a database,
  - Access to deep brain stimulation via France-Stim network,
  - Neuroradiology platforms (1.5 and 3T MRI, PET scans)
  - Neuropsychologists, psychologists and psychiatrists trained to Movement disorders,
  - Walking Platforms and platforms of Transcranial Magnetic Stimulation (TMS),
  - A biobank (DNA, plasma, cells...).

#### SPECIFIC FACILITIES:

- A project manager for academic studies,
- A project manager for industrial studies.

→ **Single points of contact for center and academic and industrial partners**

#### OBJECTIVES OF NS-PARK NETWORK:

- **To facilitate clinical research** in the field of Parkinson's disease and Movement disorders,
- **To encourage the emergence national and international collaborative multicenter academic research projects**,
- **To promote any type of clinical research in collaboration with pharmaceutical companies**, especially Proof-of-Concept and Phase II studies,
- **To develop national and international collaborations** with other research teams and networks including movement disorders rare diseases.

#### ACTIONS OF NS-PARK NETWORK:

- **Scientific expertise:** network of experts in the field of translational research in Neuroscience,
- **Methodological support:** development of new concepts and original trial designs (e.g.: wash-out, cross-over, delayed-start,..),
- **Administrative, financial and logistical support:** from conception to implementation and follow-up of clinical or pathophysiological studies with:
  - ✓ Evaluation of the feasibility of trials and of the capacity of recruitment in the network,
  - ✓ Proposal of a single budget evaluation applicable to all centers,
  - ✓ Support for the regulatory submissions,
  - ✓ Facilitation of the signature of contracts,
  - ✓ Real time follow-up of inclusions during monthly meeting with CRAs.
- **Staff training:** training to Good Clinical Practices (GCP) and certification of investigators for rating scales (MDS-UPDRS, MDS-UDysRS...),
- **Formalization of patients databases in each center to optimize recruitment**

#### NS-PARK NETWORK ORGANISATION

- **A national organization with a single contact point :**
